

LOTBLOCKS™

PARKING STOPS

Replace old concrete parking stops with 100% recycled plastic LOTBLOCKS™ Parking Stops. Will not chip or crack and resist attack from gas, oil, salt, sunlight and chemicals. Molded in solid colors and never need painting. Light enough to ship via UPS and be installed by one person. Includes installation kit for either concrete or asphalt installation.

RECYCLED RUBBER PARKING STOPS

Recycled Rubber Parking Stops are the perfect answer to the growing demand for lightweight, durable, made in USA parking stops. Constructed of 100% recycled rubber, these stops will not chip, crack or warp. Includes permanent reflective striping which is made of road marking tape. Ideal for parking lots, garages, wall protection, and other parking applications. Lightweight and easily be installed by one person. Flexible design conforms to the contour of uneven road surfaces.
